SHELL AND CABINET COLORS

COLOR SELECTION GUIDE

SHELL COLORS:

The interior shell of a spa is a distinct design element to its overall appearance. Most portable spa brands have an acrylic shell available in multiple styling effects.

We've partnered with a leading manufacturer of cast acrylic for spas. Their color lab works with interior design and color consultants from all over the world to ensure its colors and surface effects are consistently in tune with what spa owners want. And that's exactly what Saratoga Spas® offers you.

Smoky Mountain

Tuscan Sun

Silver Marble

Midnight Canyon

IMPORTANT: Samples represent photo reproduction of material. See dealer samples for the most accurate representation of color & texture. Marble shell finishes do not form in similar patterns and are uniquely independent. Be aware of this when choosing a marble shell color option. See your Saratoga Spa® dealer for more information.

CABINET COLORS:

The MultiWeather™ spa cabinets around Saratoga Spas® are manufactured with the finest quality material. The cabinet combines the durability of plastic with the look and feel of professionally finished wood. The MultiWeather™ cabinet is easy to clean and is virtually maintenance free.
